STAT

SUBJECT:

Language Training Statistics

1. The following statistics on language training respond to questions raised in the OTE Budget Hearing of 12 October 1982:

DDO Full-Time Language Students

4 October 1982

1 March 1982

5 October 1981

STAT

2. The average full-time class size in the Language School is 2.4. Class size is determined by dates of arrival for training as well as by rates of learning which necessitate class splits to accommodate learning differences. Given a perfect situation--simultaneous arrivals and compatible learning abilities--class size could be doubled or even tripled to a total of [ ] full-time students at present.
